
COOLSAVER PROGRAM

LANDLORD/HOMEOWNER CONSENT FORM

OVERVIEW

The Save On Energy CoolSaver Program (the “Program”) provides incentives to eligible residents in the Richview South area in Toronto to upgrade their home cooling systems with measures that can help reduce electricity consumption.

Eligible program participants are tenants or homeowners of single-family homes, including single-detached houses, semi-detached houses, row houses, and townhouses, that meet program eligibility requirements.

For participants that are tenants, it is mandatory to have the consent of the landlord or the homeowner to install or implement eligible energy efficiency measure(s) (including replacing previously installed equipment) under the Program. In addition, the landlord or homeowner must agree not to remove any energy efficiency measures installed under the Program before the expected service life of the measure, unless the measure fails or is replaced by a more energy efficient measure.

As the landlord or homeowner, you are receiving this form because the Participant has submitted a Participant Intake Form to the Program that includes your home (the “Facility”).

This “Landlord/Homeowner Consent Form” and any supporting documentation attached to it confirm that you have read, understood, agreed and consented to your tenant and Facility participating in the Program.

Information about the Program is available at SaveOnEnergy.ca/CoolSaver

You hereby confirm to the Independent Electricity System Operator (IESO) that:

1. The participant (tenant) named above of the Facility has your consent to participate in the Program.
2. You agree not to remove any energy efficiency measures installed as part of your Facility's participation in the Program before the expected service life of the measure, unless the measure fails or is replaced by a more energy efficient measure.
3. You consent to the IESO sharing information with and receiving information from its third party service provider(s) of this and other energy conservation programs in Ontario, including local distribution and gas companies, related to you and your Facility's participation in this and other energy conservation programs (including name, address, and contact details), for the purpose of administering and delivering the Program.
4. All information provided herein and attached to this Homeowner Consent Form is true, complete and accurate.

Homeowner signature: _____

Date: _____

Disclaimer: Signing this form does not guarantee that Eligible Measures will be installed at your Facility. Prior to acceptance of your tenant's Participant Agreement by the IESO, no binding obligations are created, and the IESO has no obligation to provide any financial incentives or install or implement any measures under the Program.

*For information about IESO's general personal information practices, please refer to its privacy policy at <https://www.ieso.ca/en/privacy> or contact
